

Professional Experience

Creatonomy Marketing Solutions

Interactive Designer/Developer - Feb 2009 to Present

Creatonomy is an advertising and marketing communications agency located in Milwaukee, WI. Originally an intern, my hire led me to time-based media projects in senior marketing and health care. The largest impact I had at Creatonomy was the site redesign from ground up, which won an award from BestFlashAnimationSite.com.

Responsibilities

- *Web Development*
- *Graphic Design*
- *Multimedia Production*

Projects

- *Creatonomy site redesign*
- *Online virtual tours*
- *Flash banners*
- *Theatrical ads*
- *Flash ad campaigns*
- *Holiday cards*

UW-Milwaukee Research Assistant

Assistant to Dr. Nathaniel Stern - May 2009 to May 2010

The University of Wisconsin systems funds a faculty member who partners with an undergraduate student in what's known as a SURF award (Salary for Undergraduate Research Fellows). Within the Visual Art Department I worked with an Area Head to create and update their artwork, including existing and upcoming exhibitions in South Africa, Massachusetts, London, and Ireland. Awarded three semesters in a row including a travel grant.

Responsibilities

- *Programming*
- *Graphic Design*
- *Exhibition installations*
- *Promotional ads*
- *Multimedia Production*

Projects

- *Compressionism*
- *Given Time*
- *Distill Life*
- *Passing Between*
- *Arrested Time*

Genesis Orlando

Intern - 3D Modeler - June 2005 to July 2005

Genesis Orlando is a company located in Celebration, Florida specializing in the design, production, and execution of 2D/3D animation and graphics for television and film. During my short time as an intern I created various 3D textured models for the environment of a feature film called *Tigger 2*. Living on-site in Florida gave me the chance to work alongside a highly skilled production team and professional Actors such as Jim Belushi and Carrot Top.

Education

University of Wisconsin-Milwaukee

BFA - Digital Studio Practice - Web Design & Animation

As part of the cross-disciplinary program at Milwaukee, my focus included web development, 2D & 3D animation, video & audio production, and graphic design. During my time in Milwaukee I participated in a number of art exhibitions including a performance at the Milwaukee Art Museum.
